

I need K-Love radio station to remain on the FM because it is what keeps me going during the day. Listening to/during/and from work enables me to be a productive citizen. It's my only source of spiritual motivation 24 hours. IF taken off, I would be depressed and thus hindering my performance at work and as a mother. KLOVE provide a valuable service, I can even listen through the internet when I am deployed from home. I listened to KLOVE when I was stated in KOREA and it felt really good about being a soldier fighting for my country. My comrades in IRAQ listen through the internet and removing KLOVE from the FM will lower our moral and spirit. So on behalf of the of the Soldiers please do not remove KLOVE from FM
